

Check off a better way to transfer patients.

ezGLIDE® is a vital part of helping your team reduce the risk of hospital-acquired infections and so much more. Use the helpful comparison checklist below to see firsthand how you can improve patient transfers today.

What should you ask yourself when selecting the best patient transfer product?

DOES THE PRODUCT...	ezGLIDE	Y/N	PATIENT TRANSFER BOARDS	Y/N
Keep your team safe?	Meant for single patient use to avoid the spread of infections.	✓	Need to be expertly cleaned after each use.	✗
Help staff and patients avoid injuries?	Ergonomically designed for patient comfort and staff safety.	✓	Heavy, bulky and often hard to manage on your own.	✗
Ship easily from North American suppliers?	Proudly handcrafted in North America to avoid overseas delays.	✓	Subject to supply-chain and quality-control issues.	✗
Ship within 24 hours?	Midwest-based, family-owned company founded by a urologist who values personalized service.	✓	Unlikely to have white-glove service once order is placed.	✗
Eliminate the need for sanitation between uses?	Disposable sheets mean no need to spend time cleaning transfer boards or stocking cleaning supplies.	✓	Must be manually cleaned to expert levels each time it is in contact with a patient.	✗
Offer convenient, one-size-fits-all technology?	Intended to stay with the patient from admission, which makes ordering and stocking inventory easy.	✓	Required to be immediately taken out of service and cleaned each time a patient is moved.	✗
Provide you with additional storage space?	Flat sheets are easier to store than bulky transfer boards.	✓	Transfer boards are large and require a dedicated space to be stored.	✗
Reduce disease spread?	Disposable sheets eliminate the risks associated with improperly cleaning boards.	✓	The surface of a transfer board is a breeding ground for germs if not properly cleaned.	✗
Offer free samples?	Order a free sample online.	✓	Must commit to purchasing without the chance to try it.	✗

WHY SLOAN MEDICAL

Protecting healthcare professionals for over 30 years.

Guaranteed to keep you safe

We've designed, tested, and continually improved our products to ensure they do their job—so you feel confident doing yours.

Personalized service

No need to demand a representative. Our Midwest-based, family-owned company was founded by a urologist who values personalized service.

One-size-fits-all reduces inventory

ezGLIDE® follows a patient throughout their admission. This eliminates the need to spend time and effort cleaning transfer boards.

Handcrafted in North America

Eliminate overseas delays and keep transfer sheets readily available for your team with products made in North America. Most products ship within 24 hours.
