

Advanced Fluid Barriers for Postmortem Professionals

You're there for the difficult, sometimes messy, jobs at the end of life.

Is your PPE there for you?

Your job can be messy. STA-DRI and ezGLIDE® keep you clean. Our postmortem care PPE provides unmatched protection from tissue, blood, bodily fluids, and the chemicals your job requires.

Your long-term solution

Death care professionals deserve affordable, surgical-grade protection, too. Keep yourself and your staff safe from HIV, HBV, HCV, E.coli, MRSA, and all the other bloodborne dangers you face.

STA-DRI
KNEE-HIGH

Superior protection,
designed for death care.

Avoid the transfer of contaminants, infection, and disease

Our disposable PPE products provide the highest level of protection by ASTM's F1671 test standards.

Stop ruining shoes and suits with the ick from work

Our impermeable, knee-high coverings are proven to keep you safe and dry through the messiest of processes.

Handcrafted in North America for optimal distribution

Handcrafted here in North America—eliminating overseas delays to guarantee you always have the best PPE available.

STA-DRI Jumpsuit

Ideal for death care workers on the move, this is the product that started it all for Sloan Medical back in the '80s.

- Heat-sealed seams prevent leaking
- Impervious 2 ml polyethylene blend
- Meets ASTM's F1671 test standards
- Lightweight and disposable
- Open-back design promotes air circulation
- One-size-fits-all

STA-DRI Bootleg® Legging

Reaching to mid-thigh and guaranteed to keep feet, calves, and thighs covered during messy processes, procedures, or investigations so you don't get wet.

- Standing 33" tall, reaches to mid-thigh
- Impervious 2 ml polyethylene blend
- Meets ASTM's F1671 test standards
- Lightweight and disposable
- Designed to surgical standards for maximum protection
- Available in regular and non-skid versions
- One-size-fits-all

STA-DRI Knee-High

Keep your feet dry and skip the slip with our most popular product. We guarantee that you (and your shoes) will stay dry no matter how messy the job gets.

- Standing 19" tall, reaches just below the knee
- Impervious 2 ml polyethylene blend
- Meets ASTM's F1671 test standards
- Lightweight and disposable
- Available in regular and non-skid versions
- One-size-fits-all

ezGLIDE Body Transfer Sheets

Body transfers can be a real pain in the neck – and the back, and the knees. Use ezGLIDE transfer sheets to make postmortem patient transfers less of an injury risk. Plus, these thick, impermeable sheets add a layer of protection to your infection control protocol, keeping dangerous pathogens with the decedent – and off of your surfaces.

- Latex-free, thick material is impermeable to pathogens and impervious to fluids.
- Disposable
- Intended for single-decedent use throughout multiple surface transfers; from home, facility, or hospital to table to casket, all with the same sheet.
